,,,,,,,,,They did mention this letter would be coming and I think your response on the air levels is appropriate.

Hi Kendall- were you expecting this letter? Just trying to make sure Snohomish let you know on the call they would be sending this. I also plan to respond to let them know that the exceedances were not of the EPA RfD, but of the ELEs. I thought I made this clear in our first tri-party call, but I see they are still referencing it incorrectly.
